

## PRODUCT INFORMATION SHEET

### HESS protective garden knee pads

#### Product description

Protective knee pads are made of elastic and soft foam. Designed for long hours of work in a kneeling position. They perfectly absorb the pressure on the knee joints, protect the knees against bruises, contusions and abrasions. Velcro fastening allows for a perfect fit and keeping the knee pads in the optimal position on the legs. They are characterized by low weight, which positively effect on freedom of use. Recommended for garden works.

#### Characteristics

- ergonomic shape that adapts to the knee reduces the feeling of pressure during long hours of work and provides protection against mechanical and thermal injuries;
- comfortable cut does not restrict movement and guarantees comfort of use;
- they are very light, almost imperceptible to the wearer.
