

PRODUCT INFORMATION SHEET

BR0L PU-coated anti-vibration protective gloves

Product description

Gloves protecting hands against hazards occurring in the working environment. The inner side of the hand is covered with rubber cushions. They absorb shocks resulting from the work performed, ensure high comfort of work with heavy tools, e.g. pneumatic hammers, impact wrenches, chainsaws, etc. They are perfect for demanding users for whom quality is important.

Characteristics

- material: polyester knit;
- high-quality shock-absorbing foam rubber;
- increased comfort of use;
- resistant to abrasion and tear;
- latex foam reinforcement;
- gloves designed to reduce the effects of impact and vibration;
- seamless gloves;
- standard: EN ISO 10819:2013, EN 388:2016;
- perfect grip and tactile feeling;
- non-slip grip to prevent slipping when operating tools.

a → abrasion resistance [4, 0-4]

b → cut resistance [1, 0-5]

c → tear resistance [4, 0-4]

d → puncture resistance [2, 0-4]

e → ISO cut resistance [B, A-F]
