

PRODUCT INFORMATION SHEET

Lithium jump starter 400A

Product description

A jump starter with a current of 400A, which can be temporarily increased to 800A, is a reliable solution for emergency situations related to battery of your vehicle. The battery, built on lithium-polymer technology, guarantees long lifetime and safe use of the device. The control diodes provide information about the battery charge status. Additionally, the jump starter is equipped with a flashlight with three functions - continuous light, flashing light and SOS light, which may be extremely useful in the event of malfunction after dark. It also has 2 USB ports for charging phone or other device.

Characteristics

- inrush current: 400A;
- peak current: 800A;
- efficient lithium-polymer battery;
- battery capacity: 10600 mAh;
- 2 USB ports;
- convenient charging via USB-C cable;
- flashlight with 3 functions:
 - continuous light
 - flashing light
 - SOS light
- set includes:
 - jump starter
 - 12 V jumper cables
 - USB-C cable
 - user manual.
