

Wrist Flashlight

Opis Produktu

Thanks to the flexible strap and the mounting mechanism similar to watches, the lamp can be worn on the wrist, arm, leg or strapped to any object. It is perfect for increasing visibility and safety during activities performed after dark, such as cycling, running, hiking, etc. It protects adults, children, animals and objects. The lamp can illuminate in 3 modes, which gives great flexibility in adapting the device to the needs and circumstances. Lighting modes: white, red, white and red light - strobe. Thanks to the inner surface of the strap made in "non-slip" technology, it does not slip even during intense movement. Quick and secure fastening is ensured by a clip lock. The operating time up to 10 hours makes the lamp a very effective warning tool.

Charakterystyka

Working time: max 10 h: - white light - 4-5 h, - red - 9-10 h, - white and red - strobe - 6-7 h; Charge time: max 4 h; luminous flux: 65 lm; power supply – 3.7 V, 400 mAh battery; charge – USB-C; number of lighting modes: 3.
