

PRODUCT INFORMATION SHEET

Neck flashlight

Product description

A rechargeable neck flashlight for people who want to have their hands free while working, but do not want to use or cannot use headlamps. It directs the light straight to the needed place, and thanks to precise illumination it does not disturb the functioning of people nearby. It has flexible arms, so you can bend it at any angle and direct the light as needed. The device has Each arm has its own power button. You can use two lamps at the same time or, if necessary, each lamp separately. It has the function of smooth dimming to make it suitable for current needs. It can work in a wide range of temperatures, outdoors in winter and in hot weather ranging from -20°C to +40°C. A strong magnet makes it possible to mount floodlight at any metal place to free up hands for work. A socket with a 1/4" thread allows the floodlight to be mounted on a tripod.

Characteristics

Max. luminous flux - 300 lm;
Additional function - dimming;
Flexible arms - yes;
Independent lighting of each arm - yes;
Max. light beam length - 30 m;
Power supply - Li-Po battery 3.7 V, 2000 mAh;
Max. working time - 10 H;
Max. charging time - 4 H;
Mounting - neck, magnet, 1/4" threaded socket;
Operating temperature - (-20)°C to +40°C;
Charging port - USB-C;
Material - ALU+ABS.
