

PRODUCT INFORMATION SHEET

Wet and dry universal vacuum cleaner 20 l

Product description

The vacuum cleaner is suitable for the garage, construction site, workshop and joinery, or manufacturing plant. It is designed to collect wood and concrete dust, chips, sawdust, small construction pieces, and other waste produced during the processing of wood or other materials. It allows cleaning of dry and wet surfaces. The liquid extraction function makes it possible to collect water effortlessly from e.g. floors of car workshops, etc. It is powered by a durable and powerful 1200 W motor, which generates an effective suction force to remove heavy dirt. It has a built-in socket, allowing it to power corded power tools. It works perfectly with appliances that have a dust extraction system. The vacuum cleaner can also work as a powerful blower, cleaning the work area. The container has space for 20 L bags. The vacuum cleaner is lightweight and handy, making it easy to move and store. The swivel wheels allow the vacuum cleaner to be manoeuvred easily, and the handle allows it to be carried effortlessly.

Characteristics

- Type of operation - dry, wet, bagged, bagless;
- Additional functions - blower;
- Power - 1200 W;
- Max power output - 1500 W;
- Voltage - 230 V;
- Bag capacity - 20 L;
- Power adjustment yes, 2-step;
- Power socket for power tools - yes;
- Wheels - YES;
-
- Length of suction hose - m;
- Length of power cord - m;
- Degree of protection - ;
- Weight - kg;
- The set includes: vacuum cleaner; flexible hose; 1.5 m tube; narrow nozzle; wide nozzle; paper bags - 2 pieces; foam filter - 1 piece.
