Dimensions

Mounting, accessories for contactors

Installation contactors **RXC25** are designed for direct mounting on 35 mm rail mount acc. to EN 60715 ❶ - they are delivered ready to install. Operational position - shall be vertical, and the inclination in each direction shall not exceed $\pm 5^\circ$ (there shall be no significant shock and vibration). **Connections:** conductor cross section: input 1,5...2,5 mm² / 1,5...2,5 mm² (hard wire / flexible cord), output 1,5...6 mm² / 1...4 mm² (hard wire / flexible cord), input terminals: 2 screws M3,5, max. tightening moment for the terminal: 0,8 Nm, output terminals: 8 screws M3,5, max. tightening moment for the terminal: 0,8 Nm.

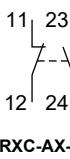

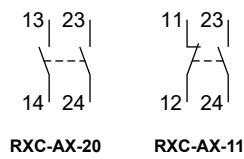

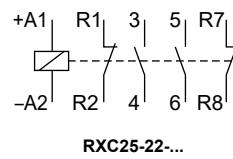

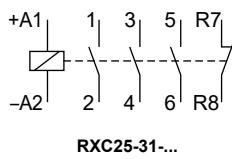

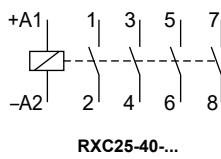

For **RXC25** contactors we offer additional auxiliary contacts **RXC-AX** (mounted on the side of the contactor, increase the width by 9 mm).

❶ The distance at least 6 mm between the contactors mounted side by side.
