Control	ON	Turns light on
	OFF	Turns light off
	+	Brightness increase*
	-	Brightness decrease*
Set up	ON & +	Search & join an open group

* short press = 10% dimming step ,
long press = smooth dimming

1. Ask a professional to install the wall switch on a wall.
2. The wall panel should be not blocked or adjacent to metal objects to ensure optimum signal transmission.
3. The wall panel should be installed far away from transformers, switching devices and communication devices (e.g. Wifi routers).
4. If the panel is not working replace the battery.
5. Keep the wall panel clean by using a low concentration alcohol cleaning agent applied with a dry cloth. Avoid using water.

1 Energy savings thanks to automated dimming and motion sensing in comparison to Ledinaire EcoSet with regular Ledinaire luminaires of the same specification.
