

PRODUCT INFORMATION SHEET

1/2" hex socket wrench set. 8 pcs.

Product description

A special type of wrench with multiple trapezoidal teeth/splines can turn bolts and nuts with various shapes of the head/flats, like hexagonal and twelve-spline. Fits metric, Imperial, and square Torx and spline sizes. Made from deformation and failure-resistant CrV steel finished with protective chromium plating in satin finish for enhanced rust protection. The inside geometry of each socket is precision-made. The forging process of the sockets has improved the load strength.

Characteristics

No. of sockets: 8 pcs. Bit size: 10, 12, 13, 15, 17, 19, 22, 24 mm. Drive size: 1/2". Material: CrMo steel, satin chrome finish.
