

GENESIS HYDRIA 240 ARGB

LIQUID COOLING

PRODUCT FEATURES:

- High-quality performance and durability, the modern three-phase pump ensures stable and quiet operation even under heavy load.
- Compact pump-block design, offers excellent compatibility with motherboards that have large VRM heatsinks.
- Quick and easy installation, requires only three cables to connect: power for the pump, fans, and ARGB.
- FDB-bearing fans with PWM control, operate only when needed – quietly and efficiently.
- Complete customization and aesthetics, 360-degree rotatable logo and flexible sleeved tubing.
