SURGE PROTECTOR ACAR F5 3M 5X FRENCH OUTLETS BLACK STRAIGHT INPUT PLUG

Catalog number: W0101

Product description

Acar F5 is the most popular surge protector in the acar family.

With a length of just under 33cm, it provides five grounded power outlets. This amount, in most applications, is sufficient, and its relatively small size allows it to be easily placed even on a desk. The automatic fuse used allows you to call it virtually maintenance-free. The high efficiency of operation predisposes it to be called a basic protection, necessary in any place. Mounting brackets are optionally available.

Product features
