

# PRODUCT INFORMATION SHEET

## Beacon

### Product description

The warning lamp serves as a flare, signalling, for example, situations on the road that require warning of danger. Particularly useful in the dark or in fog in a dangerous place. It is mounted with a strong magnet, so it can be placed on the bonnet of the car in the lower place or on other objects, also transported. It is made of ABS plastic with high resistance to crushing and mechanical impacts. In addition, it is covered with a flexible TPE coating so that it is additionally protected against damage. The lamp can illuminate in up to 9 modes, which gives great flexibility in adapting the device to the needs and circumstances. Lighting modes: red LED triple flash, double flash, single flash, rotation, alternate flashing, SOS, continuous light at the high level, continuous light at the low level, 3 white SMD on, off. The operating time up to 48 hours makes the lamp a very efficient warning tool. Quick - 2-hour recharge via the USB-C port allows for quick restoration of the device to operation.

### Characteristics

Working time: max 48 h;  
 Charge time: max 2 h;  
 Power supply – 3.7 V, 650 mAh battery;  
 Charge – USB-C;  
 Number of lighting modes: 9.
