

PRODUCT INFORMATION SHEET

Flashlight 2000 lm

Product description

A lightweight, durable, aluminum flashlight with efficient LED diodes. The waterproof housing with an IPX7 rating protects against the effects of immersion in water up to a depth of 1 meter for 30 minutes.

The zoom function allows for adjusting the size of the light beam, enabling a smooth transition from wide to focused illumination, especially useful for lighting distant objects.

The flashlight can also function as a power bank.

Included in the set is a cable with two types of ends: USB-C and USB-A.

The flashlight has 4 modes: high, medium, low, and flashing.

The device is powered by an efficient 4500 mAh lithium-ion battery, charged through a USB-C port.

The maximum light output of the flashlight is 2000 lm, allowing for effective illumination of objects.

A fabric wrist strap increases the convenience of use and transport.

The contoured housing facilitates a secure grip and operation of the flashlight.

Characteristics

- Lighting - LED;
- Light output - 2000 lm;
- ZOOM function;
- Power bank;
- Moisture protection - IPX7;
- 4 lighting modes;
- Power supply – 1*21700 battery (4500 mAh);
- Charging – USB-C.
