

## Battery floodlight

### Product description

Omnidirectional work lighting, which is characterised by very good quality of emitted light and high resistance to damage and durability. With a 360° light beam and an individual beam angle setting of each of the 3 reflectors, it offers great possibilities of adapting it to current needs and conditions. High-quality LEDs shine with white light, without dazzling and providing extensive illumination. It is suitable for work in the most difficult conditions - construction, finishing, renovation, workshops and outdoors. The lamp is powered by an efficient battery, ensuring continuous operation for up to 5 hours. Strong magnets and a foldable hook for hanging make it possible to mount the floodlight anywhere and to free up your hands for work. A socket with a 1/4" thread allows the floodlight to be mounted on a tripod. The housing with a high IP54 rating guarantees full resistance to dust ingress, ensuring trouble-free operation in the dustiest environments. Additionally, the housing protects against splashing water from any direction, which allows it to be used safely even in heavy rain. If necessary, the floodlight can power other devices via a USB-C port and work as a power bank.

### Characteristics

Max. luminous flux - 7000 lm;

Main light source - 10 W COB LED, 6.500 K;

Three operating modes - luminous flux / operating time:

1. 7,000 lms / 1.5 h / 58 m, 120°,

2. 4,000 lms / 3.5 h / 25 m, 40°,

3. 1,500 lm / 7 h / 15 m, 120°,

Dust and waterproof class - IP54 (protection against splashing water from any direction);

Power supply - Li-Ion battery, 2\*21.700, 7.4 V, 4.000 mAh;

Max. working time - 5 h;

Max. charging time - 7 h;

Head tilt adjustment - yes;

Mounting - magnets, hook for hanging, 1/4" socket;

Charging port - USB-C.

Head size - 210\*100\*95mm.
