

PRODUCT INFORMATION SHEET

Workshop lamp 200 lm

Product description

A multifunctional device for illuminating hard-to-reach places with a UV light mode. It is particularly useful for car and paint workshops, plumbers and where the use of UV light is necessary. It offers 3 lighting functions, allowing the lighting to be perfectly suited for different tasks. Ultraviolet light UV is used to detect liquids, such as oil leaks in an engine. It has a function of smooth regulation of lighting intensity. Holding the button dims the light, stopped when the button is released. The rotated head makes it possible to set the direction of light, adopting the tool to current needs. A built-in strong magnet, metal hook and clip make it possible to mount the lamp in many ways and to free up your hands for work. The lamp is powered by high-quality, capacious batteries, charged via a USB-C port. The surface of the housing is resistant to dirt and it allows the lamp to be held securely in a hand. The lightweight and compact design of the lamp makes it easy to carry and store.

Characteristics

Max. luminous flux - 200 lm;

Additional function - red light;

Three operating modes - luminous flux / operating time / lighting range:

1. 200 lm / 2.5 h / 25 m,

2. 70 lm / 9 h / 15 m,

3. 40 lm UV / 7 h / 10 m;

Additional function - smooth regulation of lighting intensity;

Head adjustment - yes;

Power supply - Li-Ion battery, 3.7 V, 650 mAh;

Charging time - 5 hours;

Mounting - magnets, hooks for hanging, clip;

Charging port - USB-C;

The set includes - power cable and plug.
