

Workshop lamp 400 lm

Product description

An essential tool for illuminating hard-to-reach places for every mechanic, electrician or DIY enthusiast. Three light setting modes allow the lighting to be perfectly suited for different tasks. The rotated head makes it possible to set the direction of light according to current needs. A strong magnet and a foldable hook allow you to attach the lamp and to have hands free for work. A LED indicator shows the battery level. The lamp is powered by high-quality, capacious batteries, charged via a USB-C port. It has a durable PC housing that protects the lamp against mechanical damage, which has been confirmed by an IK certificate. It is resistant to the ingress of water and dust according to the IP rating. The surface of the housing is resistant to dirt and it allows the lamp to be held securely in a hand. The lightweight and compact design of the lamp makes it easy to carry and store.

Characteristics

Max. luminous flux - 400 lm;

Main light source - 10 W COB LED, 6.500 K;

Additional light source - 4 W SMD LED, 6.500 K

Three operating modes - luminous flux / operating time / distance / angle:

1. 400 lm / 3 h / 58 m, 120°,

2. 200 lm / 5 h / 25 m, 40°,

3. 120 lm / 9 h / 15 m, 120°,

Impact protection class - IK07 (equivalent to an impact of a 500 g object from a height of 40 cm);

Dust and waterproof class - IP54 (protection against splashing water from any direction);

Power supply - Li-Ion battery, 2.200 mAh, 3.7 V;

Charging time - 5 hours;

Head tilt adjustment - yes;

Operating temperature - 10° to +40°C;

Mounting - magnet and hook for hanging;

Charging port - USB-C.
