

PRODUCT INFORMATION SHEET

Screwdriver set, 3 pcs.

Product description

This set of three long cross-head and flat screwdrivers, each 45 centimeters in length, is an excellent tool for working with screws located in hard-to-reach and distant places. The screwdrivers are made of durable, deformation-resistant chrome-vanadium alloy steel with hardened tips. Their magnetization facilitates and speeds up work with screws, especially those placed in areas inaccessible to fingers. The ergonomic handle design ensures comfort in use with minimal effort. The anti-slip surfaces facilitate precise work and allow for full force transfer to the screws. The special design allows working with stubborn nuts and screws by the possibility of hammering or increasing the unscrewing force using a flat wrench.

Characteristics

Tip length - 450 mm;

Tip features - hardened and magnetized;

Material - CrV;

Design - possibility of hammering and using a flat wrench;

Handle - ERGO.

The set includes:

1. ■ Long flat SL screwdriver 8 x 450 mm
2. ■ Long cross-head PH2 screwdriver 450 mm
3. ■ Long cross-head PH3 screwdriver 450 mm
