

PRODUCT INFORMATION SHEET

Brushless Mini Metal Saw 120mm 18V

Product description

Lightweight and compact saw designed for long, straight and deep cuts in metal sheets – including steel and non-ferrous materials. With the use of appropriate blades, it can also cut plasterboards, ceramic tiles and plastic.

Key features:

- cutting depth of 41.5 mm allows for efficient processing of thick materials,
- rotational speed of 4000 RPM guarantees fast and efficient cutting,
- tool-free depth adjustment thanks to the tilting foot,
- die-cast aluminum cover increases precision and durability and reduces weight,
- swarf and dust container cleans the cutting line, improving comfort and safety at work,
- the guide allows the tool to be guided precisely parallel to the edge,
- the ability to position the tool vertically after mounting the battery for easy storage,
- The compact design allows you to work comfortably overhead and in tight spaces.

Technology and Performance:

- brushless motor provides more power, longer runtime and durability,

■
Advanced electronics optimize motor power and maximize battery life.

■
the metal housing of the gearbox effectively dissipates heat, extending the life of the device,

■
Thermal protection protects against overheating during operation.

System advantages:

The OneAccuSystem 18V power supply guarantees mobility and full compatibility with the system's wide range of power tools.

Warranty:

3 years of protection with Door to Door service – minimum downtime, maximum efficiency.

Characteristics

- Disc diameter: 120 mm,
- Disc bore diameter: 10 mm,
- Maximum cutting depth: 41.5 mm,
- Tool-free cutting depth adjustment,
- Rotational speed: 4000 RPM,
- Cover Material: Aluminum,
- Base Material: Steel,
- Metal housing and transmission mechanism,
- Parallel guide included,
- Swarf and dust container,
- Battery sold separately,
- 3 years warranty after registration.
