

Brushless Mini Reciprocating Saw 18V

Product description

Compact and lightweight mini reciprocating saw ("fox") for fast and precise cutting of various materials: wood, metal, soft building blocks and plastics. It is perfect for gardening, construction sites, renovations and hard-to-reach places where the handiness of the tool is important.

Key features:

- ergonomic, lightweight design minimizes fatigue during long work,
- cuts wood up to **180 mm** thick, steel pipes up to **100 mm**, aluminum up to **30 mm**, steel up to **15 mm**,
- **26 mm** saw blade stroke and speed up to **3000 RPM** guarantee high efficiency,
- tool-free handle – quick and easy saw blade change,
- movable foot improves cutting control on rounded and angled surfaces,
- powerful LED illuminates the workplace,
- smooth speed control in the switch gives full control over the cut,
- Can be positioned vertically with the battery mounted – convenient storage.

Technology and durability:

- Blau Power brushless motor – more power, longer runtime and reliability,
- metal housing and transmission mechanism – increased wear resistance and precision of operation, advanced
- electronics to optimize engine operation and maximize battery life,
- thermal protection to protect against overheating.

Technical parameters:

- saw blade stroke: **26 mm**,
- rotational speed: **0–3000 RPM**,
- max. wood cutting thickness: **180 mm**,
- max. diameter of the steel pipe to be cut: **100 mm**,
- max. thickness of cut aluminum: **30 mm**,
- max. thickness of cut steel: **15 mm**,
- metal housing and transmission mechanism,
- LED lighting,
- smooth speed regulation,
- tool-free blade assembly,
- Power supply: **OneAccuSystem 18V** (battery sold separately).

- compact, handy and lightweight design,
- high cutting performance even with thick materials,
- quick blade change without tools,
- workplace lighting,
- protection against overheating,
- durable and efficient brushless motor,
- one battery for a wide range of system tools,
- **3-year Door to Door warranty** – minimum downtime, maximum reliability.

Characteristics

- Compact and lightweight design – comfortable working in tight spaces.
- Blade stroke of 26 mm and speed up to 3000 RPM – high cutting performance.
- Maximum cutting capabilities: 180 mm wood, 100 mm steel tubes, 30 mm aluminum, 15 mm steel.
- Tool-free handle – quick and easy saw blade replacement.
- Movable foot for better control of cutting rounded surfaces.
- Powerful LED to illuminate the work area.
- Metal housing and gearbox – wear resistance and precision operation.
- OneAccuSystem 18V power supply – one battery for many tools.
- 3-year Door to Door warranty – minimum downtime, maximum reliability.
