

Brushless Compact Drill Driver 40Nm 18V

Product description

A lighter and smaller version of the standard drill driver. It makes it easier to work in confined spaces and reduces fatigue during prolonged use. Suitable for drilling in wood, metal, plastics. The hammer function expands the possibilities to drill in brick and stone.

Key features:

- maximum torque 40 Nm,
- Two-speed transmission and 20+1 torque settings allow you to precisely match the power to the material and the task at hand.
- smooth speed control in the trigger switch increases control over drilling and screwdriving,
- additional electronic speed control improves precision,
- metal drill chuck **up to 13 mm** allows the use of a wide range of accessories,
- powerful LED effectively illuminates the work area.

Technology and durability:

- brushless motor – more power, longer operating time and high durability,
- Advanced electronics optimize motor power and extend battery life
-

■
protection against overload, overheating and overload of the battery,

■
Rubber bumpers protect the device from mechanical damage.

System advantages:

OneAccuSystem 18V power supply ensures mobility and compatibility with the system's wide range of power tools.

Warranty:

3 years with Door to Door service – minimum downtime, maximum durability.

Characteristics

- Maximum torque - 40 Nm.
- Number of torque settings – 20+1.
- Number of mechanical speed settings – 2.
- Number of electronic speed settings – 4.
- Drill chuck - metal, 13 mm.
- Rotational speed: 0-450/1500 RPM.
- The maximum drilling diameter in wood is 20 mm.
- The maximum drilling diameter in steel is 13 mm.
- Metal gear mechanism.
- Advanced electronics.
- Protection against overheating.
- 3 years warranty after registering the device.
