

## PRODUCT INFORMATION SHEET

# Brushless Polisher 150mm 18V

### Product description

The 18V cordless brushless polisher is an efficient and versatile tool for surface care and restoration. It works well for removing scratches and imperfections from car bodies, polishing headlights, furniture fronts, maintaining boat laminates or finishing wooden elements.

Speed control in 6 ranges allows you to perform a variety of tasks – from gentle scratch removal, to high-gloss polishing, to waxing. The oscillating motion ensures effective operation without leaving streaks. A 150 mm diameter blade and a speed of up to 2400 RPM guarantee fast and effective results.

The soft start eliminates jerks when starting, which increases comfort and precision of work. Blade assembly is simple and quick thanks to the spindle lock and M14 thread. The detachable handle allows for comfortable operation in hard-to-reach areas, and its rubber coating improves control.

Thanks to dust filters, it is additionally protected against dust and seizures. Advanced electronics optimize power, maximizing efficiency and extending battery life.

The OneAccuSystem 18V power supply guarantees full mobility and compatibility with a wide range of system tools. The device is covered by a 3-year Door to Door warranty.

### Characteristics

- ■ Maximum blade diameter: 150 mm.
- ■ Speed range: 800-2400 RPM, 6 settings.
- ■ Soft start.
- ■ Polishing sponge, polishing pad and sheep's wool pad included.
- ■ Detachable handle with rubber coating.
- ■ Dust protection.
- ■ Metal gear mechanism.
- ■ Spindle lock.
- ■ M14 mount.
- ■ Battery sold separately.
- ■ 3 years warranty after registration.
- ■ Power supply: OneAccuSystem 18V.
