

18V brushless plane

Product description

A powerful and precise planer for woodworking, guaranteeing a uniform and smooth surface finish. Irreplaceable in carpentry workshops and carpentry work.

Key features:

rebating depth of up to 12 mm and planing depth of up to 2 mm enables efficient work even on uneven surfaces,

16,000 RPM rotational speed ensures fast and effective operation,

replaceable knives can be easily disassembled and reassembled, which allows you to maintain continuous operation,

start eliminates jerks at start,

chip and dust removal system,

die-cast aluminum soleplate increases precision and strength while reducing weight,

groove in the foot allows chamfering of the edges,

the guide ensures accurate guidance parallel to the edges,

Technology and Safety:

■
Advanced electronics adjust motor power to the task at hand, increasing efficiency and battery life

■
metal gear increases wear resistance and precision of the mechanism,

■
thermal protection protects the device from overheating,

■
A lock against accidental activation increases work safety.

System advantages:

The OneAccuSystem 18V power supply guarantees mobility and compatibility with a wide range of power tools designed for even the toughest jobs.

Warranty:

3 years of protection with Door to Door service – less downtime, longer tool life.

Characteristics

- Jet width - 82 mm.
- Rebate depth – up to 12 mm.
- Depth of the recess – 2 mm.
- Rotational speed: 16,000 RPM.
- Foot material – aluminum.
- Metal gear mechanism.
- Milling groove.
- Included: rip fence, chip bag and interchangeable knives.
- Battery to be purchased separately.
- 3 years warranty after registering the device.
