

Milling machine for carpentry joints 18V

Product description

OneAccuSystem 18V Cordless Lamella

Compact and lightweight lamellar for precise grooving for joining. It allows you to cut grooves in the edges of solid wood, plywood, MDF and chipboard elements, into which lamellas are embedded to stabilize the structure.

Key features:

- Milling height adjustment from 5 to 35 mm provides flexibility in the selection of the groove location.
- possibility to choose one of four milling depths (up to 18 mm) for common types of lamellas,
- smooth adjustment of the cutting angle from 0 to 90°,
- high rotational speed of 11,000 RPM guarantees efficient and fast operation,
- softgrip dampens vibrations and provides a secure grip,
- additional handle stabilizes the tool guidance,
- aluminum foot increases durability and reduces the weight of the device,
- vacuum cleaner adapter and chip bag included,
- metal gear increases wear resistance,
- Thermal protection protects the device from overheating.

Technology & Performance:

Advanced electronics automatically adjust motor power to the task at hand, increasing workflow efficiency and battery life.

System advantages:

OneAccuSystem's 18V power supply ensures mobility and compatibility with a wide range of heavy-duty power tools.

Warranty:

3 years of protection with Door to Door service – less downtime, longer tool life.

Characteristics

- Maximum rotational speed: 110000 RPM.
- Cutting height adjustment: 5-35 mm.
- Cutting angle adjustment: 0-90°.
- Blade dimensions: 100x3.8x6T.
- Milling depth adjustment: max. 18mm (4 positions).
- Blade mounting: M10.
- Metal gearbox casing.
- Metal gearbox mechanism.
- Rechargeable battery available for purchase separately
- 3-year warranty upon product registration.
