

PRODUCT INFORMATION SHEET

Hexagonal crowbar 1000x19

Product description

The crowbar is intended for heavy and multi-purpose dismantling and installation works in the construction and industry sectors. Its bending resistance results from the use of hexagonal, die-forged, high-grade carbon steel, which was applied to manufacture the tool. The crowbar's ends are quenched to enhance its deformation resistance. They were also ground to increase their precision.

Characteristics

- Section diameter – 19 mm;
- section shape – hexagon;
- length – 1000 mm;
- material – carbon steel;
- HRC: 42–48.
