

PRODUCT INFORMATION SHEET

250 mm handle brass brush, 0.3mm

Product description

A hand brush is a high-quality tool designed for scrubbing and cleaning metal surfaces. Bristles made of brass are resistant to corrosion and ensure excellent durability even after intensive use. Brass fibres effectively remove rust, paint and other contaminants without damaging the cleaned surface. The optimal total brush length of 250 mm allows for easy manoeuvring and access to hard-to-reach places. It is an indispensable tool in the workshop of every professional and enthusiast of renovation and restoration work.

Characteristics

- bristle material: brass;
- stem material: stainless steel;
- handle material: plastic;
- number of rows: 1;
- total length: 250 mm.
