

Set of grinding wheels for cutting metal and stainless steel 60 pcs.

Product description

Insert for tool cabinets with a set of the most commonly used materials for cutting and metalworking. Packed in metal boxes sets of corundum wheels enable their convenient storage and easy access at any time. A combination of very popular and frequently used materials widely used in every mechanical, craft and car workshop.

Characteristics

- Corundum wheels for cutting metal and stainless steel with a thickness of 1.0 mm guarantee fast and precise cutting with minimal material loss;
- saw blades for cutting metal with different characteristics and number of teeth make it possible to cut sheet metal with a jigsaw;
- abrasive discs with a diameter of 125 mm with Velcro are ideal for processing and finishing metal surfaces after cutting;
- EVA technical foam makes it possible to keep the workplace in order, ensuring easy and convenient access to frequently used tools.

Set includes:
