MAINTENANCE BYPASS SWITCH RACK 19" POWERWALKER PDU ICR IOT 1/1 (POWER DISTRIBUTION UNIT)

Catalog number: 10133013

Product description

PDU/MBS for VFI ICR and LICR IoT 6-10kVA 1/1 UPSs. An external Maintenance Bypass Switch with function of a PDU (Power Distribution Unit) made exclusively for the VFI 6k-10k ICR and LICR IoT series. It provides continuous power without shutting down the connected loads during UPS scheduled maintenance or battery replacement. As a PDU it allows to distribute the power among several loads.
