

3-in-1 18V Brushless Router

Product description

A versatile milling machine that combines the functions of a router with an edge router and a straight grinder. Irreplaceable in carpentry, carpentry, renovation works, as well as in the processing of ceramic tiles and plasterboards.

Key features:

- 8,000–26,000 RPM rotational speed control for full control of the operation,
- micro-adjustment of the depth up to 55 mm enables extremely precise milling,
- Double-column multi-function stand increases stability and range of applications.
- Edge trimming attachment with backing ring for precise machining of edges and flanges
- turret buffer with 8 positions protects against exceeding the set depth,
- double size of the tool holder (6 and 8 mm) gives freedom in the selection of accessories,
- soft start eliminates jerk at start-up, extending the life of the device,
- LEDs illuminate the workpiece, improving visibility,
- vacuum cleaner adapter keeps the workplace clean,
-

parallel guide facilitates precise guidance of the tool,

aluminum soleplate increases the durability of the structure and at the same time reduces weight,

The double switch increases the level of work safety.

Technology and Performance:

brushless motor for more power and durability,

advanced electronics optimize power and efficiency,

metal gear increases wear resistance and precision of operation,

Thermal protection protects the device from overheating.

System advantages:

OneAccuSystem 18V power supply guarantees mobility and compatibility with a wide range of power tools.

Warranty:

3 years of protection with Door to Door service – minimum downtime, maximum efficiency.

Characteristics

- Versatile 3-in-1 router – over-spindle, edge and straight grinder.
- 8,000-26,000 RPM speed control for full operational control.
- Micro-adjustable depth up to 55 mm for exceptional precision.
- The two-column base increases stability and range of applications.
- Edge milling attachment with thrust ring.
- The turret bumper with 8 positions protects against exceeding the depth.
- Tool holder 6 and 8 mm.
- Soft start eliminates jerks when starting.
- Double switch increases safety.
- OneAccuSystem 18V power supply – mobility and compatibility with other tools.
- 3 years warranty with Door to Door service.
