

PRODUCT INFORMATION SHEET

WENNE disposable nitrile gloves black (100 pcs/op.) M

Product description

WENNE disposable nitrile gloves are designed for work that requires a high level of hygiene and protection against chemicals, viruses and bacteria. Made of durable nitrile, they are a safe alternative to latex gloves, especially for people with latex allergies. The material provides good mechanical and chemical resistance, while maintaining flexibility and tactile feel, which facilitates precise actions. The gloves will work well in medical, laboratory, industrial, cosmetic applications, as well as during cleaning and service work. The product meets the requirements of EN ISO 374 and EN ISO 374-5 standards, confirming protection against selected chemicals, bacteria and viruses.

Characteristics

Made of nitrile – latex free; Disposable, hygienic and convenient to use; Chemical resistance (type B); Protection against bacteria and viruses; Intended for contact with chemicals and biological agents; Black – practical in working environments; Package: 100 pcs.
