

OUR MOST
ECONOMICAL:

SUPER-EFFICIENT
LED LAMPS

WE ARE NOT HAPPY ABOUT HIGH ELECTRICITY COSTS

For LEDVANCE, sustainability has always been a fundamental part of our business ethics. That's why – with our OSRAM-branded products – we have long offered one of the widest ranges of modern and energy-saving LED lamps.

New in our range are super-efficient LED lamps in Energy Efficiency Class A. They provide even more energy savings – on average up to 60 % compared to standard LED lamps. Compared to old incandescent lamps they even save up to 93 % energy. And all that with a life of up to 50 years! Twelve different types from 40 W to 100 W replacements are available. This lighting technology is the best possible response to the sharp rise in electricity prices and one of our many solutions for sustainable energy saving.

PRODUCT FEATURES

PRODUCT FEATURES

- Warm white light
- Beam angle: up to 300°
- Very long life of up to 50 000 h
- Very high number of switching cycles of up to 100 000
- Luminous efficacy: up to 210 lm/W
- 5-year guarantee

PRODUCT BENEFITS

- Very low energy consumption
- Lamps with innovative LED technology
- Instant 100 % light, no warm-up time
- Low flicker
