EXPERIENCE THE FUTURE OF OUTDOOR LIGHTING

FLOODLIGHT FLEX

HIGHLY FUNCTIONAL IN OUTDOOR,
AREA AND SPORTS LIGHTING APPLICATIONS

Designed with efficiency and versatility in mind, the new FLOODLIGHT FLEX generation meets the many different needs of outdoor, area and sports lighting. Its strengths include a long lifetime, C5 corrosion resistance, IP66 protection and IK08 impact resistance, making the new FLOODLIGHT FLEX luminaires an ideal choice even for coastal and industrial environments. A wide range of sizes, lumen packages, colour temperatures and beam angles allows the floodlights to be tailored to any requirement. Integrated features like a breather, water drainage system and ULOR 0 % at 0° tilt ensure optimal performance and longevity outdoors.
