AUTOMATIC TRANSFER SWITCH RACK 19" FOR UPS POWERWALKER DO 3000VA, 8X IEC C13, 1X IEC C19

Catalog number: 10120543

Product description

PowerWalker ATS is designed with two independent power inlets to supply power to the load from primary power source. Should primary power source fail, the secondary will automatically backup the connected equipment without any interruption. The transfer time from one to another is seamless to the connected equipment. After switching to a secondary power source, the ATS can also switch power back to the primary input when power to the primary input is restored.

- Provides seamless power switch for IT equipment
- Preferred source selection on front panel
- Supports all UPS up to 3000 VA
