## UPS EMD MODUL FOR SNMP CARD FOR UPS POWERWALKER VFI LCD, VFI RM LCD

Catalog number: 10120544

### Product description

Model: EMD for SNMP Manager

SKU: 10120544 EMD (environmental monitoring device) for SNMP Manager is a connectivity devices for remote monitoring of temperature and humidity. It provides dry contacts to communicate with compatible devices such as security system or alarm system.

EMD module for UPS models: VFI LCD/C/CG PF1/CPG PF1/CW/CRM/RMG PF1 (compatible with SNMP card model 10120505)

### Product features

|                              |                                                                               |
|------------------------------|-------------------------------------------------------------------------------|
| Input voltage range [V]      | from 8,40 up to 9,60                                                          |
| Output voltage [V]           | 12,00                                                                         |
| Colour                       | Black                                                                         |
| Environment temperature [°C] | from 0,00 up to 100,00                                                        |
| Environment humidity [%]     | from 10,00 up to 90,00                                                        |
| Length [mm]                  | 109,80                                                                        |
| Width [mm]                   | 71,00                                                                         |
| Height [mm]                  | 39,70                                                                         |
| Weight [kg]                  | 0,25                                                                          |
| Supported Operating Systems  | FreeBSD; Linux; MAC; Windows XP; Windows 7; Windows 8; Windows 10; Windows 11 |
